Connecting to FLCCwifi with Windows 10

1) Click on the Internet Access icon in the Windows Taskbar

2) Choose FLCCwifi from the list of available networks

3) Click Connect

4) Log in with your WebAdvisor Username and Password. Use employee\ or student\ before the username depending on your college affiliation Ex. employee\BSmith2 or student\GSmith3 with your WebAdvisor Password

| Wi-I | Fi | | |
|------|---|--------------|--------|
| | On | | |
| (h. | FLCCwifi Enter your user name User name | and password | |
| | Password | | |
| | | OK | Cancel |

5) If you see the Windows Security Alert click Connect

| 0 | On | | | |
|-----|---|---------|--------|--|
| Cc. | FLCCwifi | | | |
| | Continue connecting? | | | |
| | If you expect to find FLCCwifi in this location, go ahead and connect. Otherwise, it may be a different network with the same name. | | | |
| | Show certificate details | | | |
| | | Connect | Cancel | |

6) This screen shows when you have successfully connected and the icon in the taskbar

If you have any issues with logging into the FLCCwifi, please stop in to the FLCC IT Helpdesk in Room 3300 or call (585)785-1419

Additional Instructions

This tutorial will show you how to "FORGET" a wireless network because you either don't use it anymore or the settings are wrong and you want to set up the network again

1. Click on the wireless icon in the taskbar

2. Select Network Settings

3. Click Manage Wi-Fi Settings

4. Scroll down under "Manage known Networks" Select the network you want to forget and click "Forget"

Manage known networks

| FLCCwifi | |
|----------|--------|
| | Forget |

5. Now you can start at the top to reconnect to FLCCwifi or another network if needed
